

Design Assurance Engineer/ Master Data Specialist (80-100%)

About Us:

LEM Surgical AG is a rapidly growing and pioneering high-tech MedTech start-up based in Bern, Switzerland. At the forefront of developing the next generation of hard-tissue surgical robots, we offer an exciting opportunity in our operations department for a talented and experienced Design Assurance / Master Data Specialist who is driven and passionate.

Your Responsibilities:

- Lead cross-functional change order request and change impact meetings.
- Manage CAD/PDM/PLM/ERP interfaces and ensure data accuracy.
- Review product specifications, product documentation, and manage master data.
- Develop and update training materials and work instructions for current and new employees.
- Ensure compliance with validation processes, statistical techniques, and regulatory standards.
- Act as a core team member in New Product Introduction projects and design development teams and take on projects and activities within these areas.

Your Profile:

- Bachelor's or master's degree in an engineering discipline.
- At least 5 years of experience in a similar role, managing engineering change orders and CAD/PLM/ERP master data.
- In-depth knowledge of regulatory requirements and quality management systems, specifically ISO 13485 / FDA 21 CFR Part 820.
- Excellent communication and interpersonal skills, with the ability to collaborate effectively across diverse teams.
- Proficient command of the English language, both written and spoken.

What We Offer:

- An impactful position within a fast-growing, innovative company, shaping the future of surgical robotics.
- A diverse, cross-cultural team that brings daily passion to the table, united by a shared commitment to innovation and excellence.
- Competitive salary and comprehensive benefits package that values your expertise and contributions.
